Why Choose Pythagoras for your Microsoft CRM Solution?

Experience

Since 1999 Pythagoras has grown to become one of the UK leading integrator of Microsoft CRM systems and solutions, implementing over 350 deployments. Our client base is from a wide range of verticals, such as Insurance, Not for profit to Education and Healthcare. Furthermore, as our clients range from large corporate and public sector organisations through to small and medium size businesses; the range of solutions implemented by Pythagoras showcases our exceptional experience and knowledge for developing tailor made solutions for your business.

Support

Pythagoras offers expert support through every stage of the solution, from scoping through to after go live support. Whatever your requirement our support team with exceptional experience for all situations will be there to help you quickly and efficiently.

Pythagoras works closely with all our clients to ensure that all project expectations are realised and is totally committed to delivering the most powerful, innovative and customisable solutions.

Client Testimonials

“The CRM Solution delivered by Pythagoras has saved us money by streamlining our business processes and giving us greater visibility of our Stakeholders and Communications with them”

“The exceptional technical support provided by Pythagoras has supported our learning and understanding perfectly”

“Pythagoras developed the unique business processes that we required for a successful CRM implementation”

“Pythagoras has delivered an excellent solution on time and within the metrics we set. At all points during the project, the support was invaluable”

“Pythagoras helped us to overcome our technical barriers and to provide a single view of the client from many different systems”
