#### **The benefits are clear:**

- **Simplicity** - You may send cheques of virtually any currency directly to PacNet for encashment - no need to worry about managing multiple bank accounts in foreign countries.
- **Speed** - Funds are credited to your account quickly, in whichever currency you prefer.
- **Sales** - Accepting payment in the local currency of your customers makes them more comfortable and more likely to buy.
- **Serenity** - Cheques cannot be "charged back" in most countries.
- **Savings** - The combined volume of cheques in any given currency allows PacNet to negotiate remarkably low rates – no more paying high fees to negotiate foreign items through your bank.
- **Security** - You will be able to access Transaction Summary Reports via PacNet's secure RAVEN payment gateway.

#### **How it works:**

Cheques and Postal Orders can be sent to us as often as necessary, without endorsement, straight from your order processing or fulfillment centre. Sending batches via international courier is easy, secure and poses no significant delay to processing.

We count each batch and confirm the deposit, reporting to you with batch totals and currency exchange rates at the end of each business day.
